

Foam Sensitive Foam Luxury

Foam Sensitive and Foam Luxury are two new swan labelled soaps, made as foam solutions. The advantage of a foam soap is that it has less of an impact on the environment and is economical in use. This means fewer refills and less packaging material, as well as an economized use of water - you can use the soap on dry hands and just rinse off with water.

With Foam Sensitive you will get:

- An extra mild and skin sensitive foam soap
- A swan labelled product, without perfume or color
- Soft and comfortable foam, recommended for frequent washing
- 1,0 l foam soap which will last approx. 1500 washes

With Foam Luxury you will get:

- A mild and skin sensitive foam soap
- A swan labelled product, without color, but with a fresh scent
- Soft and comfortable foam, recommended for normal and frequent washing
- 1,0 l foam soap which will last approx. 1500 washes

With CombiPlum Foam Dispenser you will get:

- A dispenser for 1,0 l foam soap
- A reliable dispenser which is easy to clean and refill
- An economical dispenser which only uses 0,4 ml per dosage

The product is available in:

Product name	Art. No.	Packaging	Dispenser
